## Job Description

---

## Education & Experience

---

Key Responsibilities:

- Personal Care: Assisting patients with washing, dressing, toileting, and other hygiene-related tasks.
- Mobility Assistance: Helping patients move around, transfer in and out of bed, and use mobility aids.
- Monitoring Patient Conditions: Taking vital signs like temperature, pulse, and respiration, and recording observations in patient records.
- Feeding and Hydration: Assisting patients with meals and ensuring they have access to adequate fluids.
- Emotional Support: Providing companionship, reassurance, and a listening ear to patients.
- Maintaining a Safe Environment: Keeping the ward or patient's living space tidy, ensuring equipment is clean, and reporting any safety concerns.
- Following Care Plans: Adhering to specific care plans and instructions provided by nurses and other healthcare professionals.
- Communication: Communicating effectively with patients, their families, and other members of the healthcare team.
- Clinical Support: Assisting with basic clinical tasks, such as dressing wounds or taking blood samples, under the supervision of qualified staff (this can vary by setting and experience).
- Record Keeping: Accurately maintaining patient records and documentation.

Essential Skills:

- Caring and Compassionate Nature: A genuine desire to care for others and provide comfort.
- Communication Skills: The ability to communicate effectively with patients, families, and colleagues.
- Observation Skills: The ability to notice changes in a patient's condition and report them promptly.
- Physical Stamina: The role requires physical activity, including lifting and moving patients.
- Teamwork Skills: Working effectively as part of a healthcare team.
- Problem-Solving Skills: The ability to respond to unexpected situations and find solutions.
